

**Brookline Fire Department**  
**Board of Fire Engineers**  
**Po Box 660**  
**Brookline, New Hampshire 03033**

**Minutes**  
**Board of Fire Engineers**  
**Tuesday, October 11, 2016**

The meeting was called to order at 7:00 pm.

Board of Fire Engineers members Dave Joki, Dave Santuccio, Dave Flannery and Chief Corey were present.

September minutes were read and accepted.

Bills were signed.

The board was updated on the new radios. We are waiting on US Cellar to give us the okay to put equipment on the tower.

We are getting pricing on the kitchen floor and carpeting downstairs in the three offices and in the conference room.

Pepperell is having a training on October 23, 2016 and we will be send 5E3 to this tanker training.

Dave Joki wants to know if we can make our fire coats with enough reflect striping to do away with our vest? They do not have the material to do it at this time. You can't get the green or orange needed.

Grant was read by the board and some changes were made.

Budget was discussed for 2017 and we don't have to go to first round of budget meetings because our budget is flat. 2016 budget was discussed and it is on track to where it should be.

Drafting basin on Taylor Dr. has been fixed by Scott Brooks Excavation. Now we are waiting for the water to come back up.

Meeting adjourned at 9:00 pm.

Respectfully submitted,  
Charles E. Corey Sr.
