Re: Proposed Kinder Morgan Gas Pipeline

Dear Councilor Sununu:

We are elected or appointed officials from 15 New Hampshire towns affected by the proposed Northeast Energy Direct (NED) high-pressure gas pipeline project. The pipeline, proposed by Kinder Morgan and Tennessee Gas Pipeline Company, originates in New York, passes through western Massachusetts, and then traverses 19 New Hampshire towns before terminating in Dracut, Massachusetts.

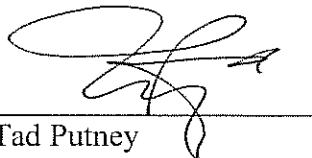

We believe that the proposed NED pipeline is wrong for New Hampshire, is unnecessary to meet the projected energy needs of New England, is an inappropriate use of eminent domain for the benefit of a private corporation, and is an insult to the conservation efforts of the state, municipalities, and conservation easement holders given the existence of better alternatives.

Given your candidacy for the office of governor, we would value the opportunity to discuss this project, our concerns, and recommendations with you. We meet every other week in Brookline and would be pleased to host you at an upcoming meeting. If it is preferable for us to come and meet with you at another time and location, we would be pleased to do so.

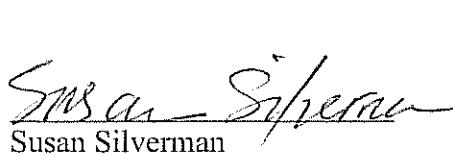

For ease of communication with the Coalition, please contact Tad Putney directly at 673-8855 x213 or via email at tputney@brookline.nh.us.

We look forward to hearing from you.

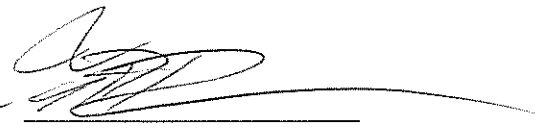

Sincerely,

Tad Putney
